

SMILE LIKE IT'S '88

A CELEBRATION OF THE SECOND SUMMER OF LOVE
AND THE BIRTH OF UK RAVE CULTURE

The Second Summer of Love was a cultural and musical phenomenon that emerged in late 1980s Britain. Fuelled by the rise of acid house music and a disaffection with Thatcher's conservative government, this transformative period saw the coming together of diverse youth subcultures, united by a shared passion for music and dance. Illegal raves and warehouse parties became the backdrop for this movement, characterised by an ethos of peace, love, and unity.
